

Maria Database Administrator (L2 Support)

City

Tokyo, Japan (Roppongi Itchome area)

Your role

The successful candidate must be able to provide maintenance and enhancement support for our MariaDB/MySQL database and to enforce risk governance, compliance and security standard technologies.

- Take care of Production Troubleshooting/Monitoring/Backup and Recovery
- Be responsible for architecture planning and 24/7 on-call production support
- Provide temporary recovery plan and permanent solution analysis report to Customer
- Support application release and validate MariaDB/MySQL scripts to avoid production troubles
- Improve document management in team

About us

Originally established as the core of SBI Group's FinTech strategy in July 2015, SBI BITS has fulfilled and surpassed this role, cementing its position as an up-and-coming Asian FinTech company with offices in Tokyo, Hong Kong and Dalian.

Currently, we provide full support of key technology for Japannext, the largest PTS by trading volume in Japan and accompanying services. We are also the primary provider of IT services to Japan's largest online trading firm, SBI Securities. By utilizing and developing cutting-edge advancements in financial technologies such as Blockchain KYC/AML, rock-solid data center management, low-latency colocation services, and the world's fastest matching engine, we supply clients with high financial solutions in an ever-evolving market.

We have gathered IT experts from all over the world and currently boast an international working environment of employees from over 40 countries. Top leaders, with more than 20 years of experience each in the FinTech industry, are spearheading the group.

Our identity is to be Japan's most modern FinTech Company that changes with the times, providing Financial Technologies based on customer needs, and ensuring that we're always innovating, always one step ahead, and always committed to the needs of the customer.

We have many new exciting projects planned ahead and always seeking for high caliber talents to join our dynamic teams. Do you want to be one of us?

Our culture

We want people who value teamwork and a results-driven mindset, who flourish in a challenging and diverse working environment. We value your passion and commitment, and reward your performance.

Your team
